Summary

To provide a georeferenced map of the selection of lands by First Nations that have validated Treaty Land Entitlement. "Crown Lands Act 5(1)(d)"

Description

This file contains information regarding the selection of lands by First Nations that have validated Treaty Land Entitlement. "Crown Lands Act 5(1)(d)"

This is an active layer, data can change daily. All Departments and Agencies impacted will receive all necessary updates.

Land Selections are provided with reference to a plan of survey or metes and bounds legal description as provided on a certificate of title. They are then digitized in ArcMap 10.6.

The method used is dependant on the location of the selection and the availability of digital base mapping in the area.

A record may contain mulitple polgons that have been combined to form one record.

The following base mapping products are used to heads up digitize selections.All heads up digitizing is completed with the base map product scale set tono greater than 1:30000. Listed in order of priority dependant on availability.:
